KEY TO THE REGISTER.

1896-97.

KEY TO SYMBOLS AND ABBREVIATIONS IN THE REGISTER BOOK.

SYMBOLS OF CLASSIFICATION OF LLOYD'S REGISTER.

- ***A**1..... Character of Iron vessels built with thicker plating than required for **A**1.
- A**1 **A**1 **A**1 Characters of Iron ships built according to the Rules of the Society in force between the years 1864 and 1871.
- 100**A**1 95**A**1 }
90**A**1 85**A**1 } Characters of ships built of Iron or Steel according to the Rules of the Society for Iron ships since 1869.
80**A**1 75**A**1 }
- A**1 Without a numeral prefixed, character of Iron vessels built for a special purpose.
- A**1 Character of Wood or Composite ships of the first class well and sufficiently equipped. The figures in column 5 (Steamers), column 6 (Sailing Ships) prefixed to the character indicate the term of years for which the vessel is at present classed: thus 11**A**1, Cont 6**A**1, Rest 6**A**1. (See note under Cont and Rest). The figures in column 7 indicate the expired terms of years assigned, originally if on the first line, and on continuation if on lower lines.
- A**1 Character of ships which have passed period assigned on original Survey, or Continuation, or Restoration, and of ships, not having an original Character, which are found to be fit to carry dry and perishable goods. The term of years for which the character **A** in red is assigned appears under the class in column 5 (Steamers), column 6 (Sailing Ships): thus **SS** **Ply.96-6yrs.**
- Æ**1..... Character of ships fit for conveyance of dry and perishable goods on short voyages. The term of years for which the character **Æ** is assigned appears under the Class in column 6 (Sailing Ships): thus **SS** **Ply.96-4yrs.**

The figure 1 affixed to a character signifies that the vessel is well and sufficiently equipped. A line after the **A** (thus, **A—**) signifies that the equipment is deficient from that required by the Rules.

The words "*with freeboard*" under the character signify that the freeboard assigned is a condition of the vessel's class.

SYMBOLS OF CLASSIFICATION OF THE UNDERWRITERS' REGISTRY.

- A**1*, **A**1*..... Characters of Iron or Steel Vessels built in excess of the Rules and of extra quality of Iron.
- A**1*, **A**1*; **A**1, **A**1; **A**, **A** Characters of Iron, Steel, or Composite Vessels built according to the Rules.

Vessels classed in Red have been built under the inspection of the Surveyors to the Liverpool Registry.

The figure 1 or 2 affixed to Symbols of Classification signifies the Character of Equipment.

The figures in the 17th (Sailing Vessels) or 16th (Steamers) Column represent the mean drafts corresponding to an immersion of 65, 70, 75, and 80 per cent respectively, as assigned by the Underwriters' Registry, but these drafts do not indicate approved load lines.

RECORDS OF SURVEY, &c.

The Figures under a Character denote the date when the Vessel was last Surveyed.

All vessels are required to be surveyed periodically. The *date of Survey* only certifies to their state of efficiency *at that time*.

The 6th, 7th, and 8th Columns (Sailing Vessels) or 5th, 6th, and 7th Columns (Steamers) left blank, indicate that the Vessel has never been Classed in the Register Book.

When the sixth (Sailing Vessels) or fifth (Steamers) column is left blank except as regards the date of Survey last recorded, it indicates that the Character has expired or been withdrawn from absence of Survey, or on account of non-payment of fee due in the case.

N.B.—In order to prevent the disappointment arising from Ships losing their Characters from want of survey, it is hereby intimated that the duty of giving NOTICE OF PERIODICAL SURVEYS required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

TONNAGE.

The tonnage recorded in the Register Book—Col. 4 (Steam Vessels) is the Official registered tonnage measured according to the Rule of the country to which the Vessel belongs, thus } 3101 (Gross), 2864 (Under dk.) 1994 (Net.)

In a few cases of foreign Vessels where the tonnage recorded is according to British rule, the fact is indicated by the use of italic figures. } 3101 (Gross), 2864 (Under dk.), 1994 (Net).

Tonnages are similarly distinguished in the Register of Sailing Vessels.

MASTERS.

The dates following the name of the Master in Col. 3 (Sailing Ships) and Col. 2 (Steamers) indicate (1) the year when the Master entered the service of the present Owner of the Vessel and (2) when he was appointed to the Vessel.

A List of Surveying Ports will be found at the end of the KEY TO REGISTER.

While the Committee take all means possible to obtain correct information concerning the Vessels entered in the Society's Register Book, it will be understood that in the case of Vessels not classed by the Society they cannot vouch for the complete accuracy of all the particulars given in respect of dates of metalling, tonnage, dimensions, decks, classification, &c.

HORSE POWER.

The formulæ from which the Nominal Horse Powers are calculated are :—

1. In cases of vessels in which the particulars of boiler pressures and surfaces are known—

$$\begin{aligned} \text{NHP} &= \frac{P + 340}{1000} \left(\frac{D^2 \sqrt{s}}{100} + \frac{H}{15} \right) \text{ where the boiler pressure is below 160 lb.} \\ &= \frac{P + 590}{1500} \left(\frac{D^2 \sqrt{s}}{100} + \frac{H}{15} \right) \text{ where the boiler pressure is 160 lb or above.} \end{aligned}$$

If the boilers are fitted with Forced Draught or Induced Draught appliances, then $\frac{\Pi}{12}$ is taken instead of $\frac{H}{12}$.

2. In cases where particulars of the boiler pressures and heating surfaces are not known :—

$$\begin{aligned} \text{NHP} &= \frac{D^2 \sqrt{S}}{100} \text{ for Triple and Quadruple Expansion Engines.} \\ &= \frac{D^2 \sqrt{S}}{120} \text{ for Compound Engines.} \\ &= \frac{D^2 \sqrt{S}}{130} \text{ for Simple Engines.} \end{aligned}$$

In the above Rules, d = diameter of L.P. Cylinder in inches.

s = Stroke in inches.

H = Heating surface in square feet.

P = Working pressure in lb per square inch.

TABLE EXPLICATIVE CONCERNANT LE REGISTRE.

1896-97.

TABLE EXPLICATIVE DES MARQUES ET ABREVIATIONS DU "LIVRE-REGISTRE."

MARQUES DE CLASSIFICATION DU LLOYD'S REGISTER.

- * **A1**..... Cote des navires en fer, construits en tôles plus fortes que celles qui sont exigées pour la cote **A1**.
- A1 A1 A1**..... Cotes des navires en fer construits conformément aux règlements de la Société, en vigueur de 1864 à 1871.
- 100A1 95A1**
90A1 85A1
80A1 75A1 } Cotes des navires en fer ou en acier, construits conformément aux règlements de la Société pour navires en fer, depuis 1869.
- A1**..... Non précédé d'un chiffre, cote des navires en fer, construits pour un service spécial.
- A1**..... Cote des navires en bois et composites de la première classe, bien et suffisamment équipés. Les chiffres de la 5^{me} colonne (Bateaux à vapeur) et de la 6^{me} colonne (Navires à voiles), précédant cette cote, indiquent le nombre d'années pour lequel le navire est classé présentement ainsi: 11A1, Cont. 6A1, Rest. 6A1, (voir la note pour Cont. et Rest.) Les chiffres placés dans la 7^{me} colonne (Bateaux à vapeur) et dans la 8^{me} colonne (Navires à voiles) indiquent les années expirées de la période de durée assignée à la cote originelle, si le chiffre est placé à la première ligne, et de la période de continuation, s'il est placé à une des lignes en-dessous.
- A1**..... Cote des navires qui ont dépassé la période de durée assignée à la cote par la visite originelle ou par celles de continuation ou de restitution, et navires n'ayant jamais été cotés dans le Registre, mais qui sont reconnus propres au transport de marchandises sèches et périssables. Le nombre d'années pour lequel la cote A en rouge est assignée, est inscrit sous la cote dans la 5^{me} colonne (Bateaux à vapeur) et dans la 6^{me} colonne (Navires à voiles); ainsi: **SS Ply. 96-6 yrs.**
- E1**..... Cote des navires propres au transport de marchandises sèches et périssables pour de courtes traversées. Le nombre d'années pour lequel la cote E est assignée, est inscrit sous la cote, dans la 6^{me} Colonne (Navires à voiles); ainsi: **SS. Ply. 96—4 yrs.**

Le chiffre 1 ajouté à la cote, indique que le navire est bien et suffisamment équipé. Un trait après la lettre A (ainsi: A—) signifie que l'équipement est défectueux d'après les prescriptions du règlement.

Les mots "with freeboard" sous la cote indiquent que le francboard assigné est une condition de la cote du navire.

CLASSIFICATION DU "UNDERWRITERS' REGISTRY."

- A1*, A1***..... Cotes des navires en fer ou en acier, dans la construction desquels on a surpassé le règlement et employé du fer de qualité supérieure.
- A1*, A1*; A1, A1; A, A**..... Cotes des navires en fer, en acier, ou composites, construits conformément au règlement.

Les navires cotés en rouge ont été construits sous la surveillance des Inspecteurs du Liverpool Registry.

Les chiffres 1 et 2 ajoutés aux marques de classification, signifient la cote de l'équipement.

Les chiffres placés dans la 17^{me} colonne (Navires à voiles) et dans la 16^{me} colonne (Bateaux à vapeur) représentent le tirant d'eau moyen, correspondant à l'immersion de 65, 70, 75 et 80 pour cent. respectivement, comme il est assigné dans le "Underwriters' Registry"; mais ces tirants d'eau n'indiquent point les lignes de charge admises.

ENRÈGISTREMENT DES VISITES, &c.

Les nombres qui figurent sous une cote indiquent l'époque à laquelle le navire a été inspecté en dernier lieu.

Tous les navires doivent être inspectés périodiquement. L'époque de la visite ne certifie que la condition des navires à ce moment.

Les 6^{me}, 7^{me} et 8^{me} colonnes (Navires à voiles), ou les 5^{me}, 6^{me} et 7^{me} colonnes (Navires à vapeur) laissées en blanc, indiquent que le navire n'a jamais été coté dans le Livre-Registre.

Quand la 6^{me} colonne (Navires à voiles), ou la 5^{me} colonne (Navires à vapeur) est laissée en blanc, excepté en ce qui concerne l'époque de la visite dernière enregistrée, cela indique que la classe est expirée, ou bien qu'elle a été rayée soit pour manque de visite, soit pour non paiement des frais dus dans ce cas.

N.B.—Afin d'éviter les mécomptes provenant de la déchéance de la cote d'un navire pour avoir négligé la visite, avis est donné par la présente, qu'il est du devoir des armateurs capitaines ou agents, de demander les visites périodiques imposées par le règlement. Il en est de même dans le cas où des réparations sont devenues nécessaires par suite d'avaries ou pour une autre cause quelconque.

TONNAGE.

Le tonnage qui figure sur le Livre-Registre—Col. 4 (Bateaux à vapeur) est le tonnage Registre officiel mesuré suivant les règlements du pays auquel le navire appartient, ainsi } 3101 (Brut) 2864 (sous le pont) 1994 (Net.)

Quelques Navires étrangers figurent sur le Livre-Registre avec un tonnage établi d'après les règlements Anglais; dans ce cas le tonnage figure en caractères italiques } 3101 (Brut) 2864 (sous le pont) 1994 (Net.)

Les tonnages sont distingués de la même façon sur le Registre des Navires à Voiles.

CAPITAINES.

Les dates à la suite du nom du Capitaine dans la colonne 3 (Navires à voiles), ou colonne 2 (Bateaux à vapeur) indiquent—1^o l'année où le Capitaine est entré en service de l'armateur—2^o quand il a été chargé du commandement du navire.

Une liste des ports de visite se trouve à la fin de la TABLE EXPLICATIVE DU REGISTRE.

Bien que le Comité prenne toutes les mesures possibles, pour obtenir des renseignements exacts sur les navires énumérés dans le Registre de la Société, il est à noter que dans le cas où les navires ne sont pas cotés par la Société, elle ne peut garantir la exactitude de tous les détails donnés relativement aux dates du doublage, au tonnage, aux dimensions, aux ponts, à la classification, etc.

CHEVAUX DE FORCE.

Les formules au moyen desquelles la force nominale en chevaux doit être calculée sont :—

1. Quand les détails des pressions et surfaces des chaudières des navires sont donnés—

$$\begin{aligned} \text{NHP} &= \frac{P + 340}{1000} \left(\frac{D^2 \sqrt{S}}{100} + \frac{H}{15} \right) \text{ quand la pression des chaudières est en-dessous 160 lb.} \\ &= \frac{P + 590}{1500} \left(\frac{D^2 \sqrt{S}}{100} + \frac{H}{15} \right) \text{ quand la pression des chaudières est 160 lb ou au-dessus.} \end{aligned}$$

Si les chaudières sont pourvues d'un tirage artificiel, $\frac{H}{12}$ est pris au lieu de $\frac{H}{15}$.

2. Quand les détails de la pression et les surfaces de chauffe ne sont pas donnés—

$$\begin{aligned} \text{NHP} &= \frac{D^2 \sqrt{S}}{100} \text{ pour les machines à Triple & Quadruple expansion.} \\ &= \frac{D^2 \sqrt{S}}{120} \text{ pour les machines compound.} \\ &= \frac{D^2 \sqrt{S}}{130} \text{ pour les machines simples.} \end{aligned}$$

Dans les Réglements ci-dessus D = diamètre du L.P. Cylindre en pouces.

S = Course du piston en pouces.

H = Surface de chauffe en pieds carrés.

P = Pression des grandes chaudières en livres par pouce carré.

* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*. * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*. Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being ascertained that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*. * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*. Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*. * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*. * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*. * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

LIST
OF
SHIP OWNERS AND MANAGERS.

LISTE
DES
ARMATEURS ET DES DIRECTEURS-GÉRANTS.

NOTE.--This List consists chiefly of the Names of Managing Owners. It therefore does not include the names of some large Owners of Shipping Property, or form a true indication of the extent to which others are interested in Shipping.

NOTA.—La liste est composée principalement des noms des Directeurs-Gérants des Navires. Elle ne comprend donc pas les noms de certains Armateurs importants et n'indique pas non plus exactement quelle part d'intérêt certains autres possèdent dans la navigation.
